

# Daniel Newbold

Senior Full Stack Engineer - React/React Native, Angular, Vue, Node, PHP, Python, AWS, Azure

**Address:** 4056 Windsor Ln, Milton, FL 32571

**Email:** [newboldd537@gmail.com](mailto:newboldd537@gmail.com)

*I am a senior full-stack developer with more than 10 years of extensive experience in web application development using multiple languages and frameworks. I am proficient in all stages of application development including requirement analysis, designing, coding, testing, and debugging.*

*As a Senior Fullstack Developer, I am highly proficient in both front-end and back-end technologies, and I have worked on various projects, ranging from small-scale applications to complex enterprise solutions.*

*Technical Specifications:*

- JavaScript, Typescript, PHP, Python, Golang, Ruby, C/C++, Java
- Frontend - React(Next.js), Angular, Vue(Nuxt.js), Typescript, Gatsby.JS, Tailwind CSS,
- Backend - Node.js (Nest, Express), PHP, Laravel, Symfony, Django, Flask, Golang, .Net, Java, Python
- CMS Frameworks - Wordpress, Webflow, Wix, Squarespace, Drupal, Shopify
- APIs - Restful API, Social Media API (Facebook, Google, Instagram) Twilio, SendGrid, Payment Gateway(Paypal, Stripe)
- Databases - MySQL, Redis, MongoDB, PostgreSQL, Supabase Elasticsearch
- DevOps - AWS, Azure, Gitlab, CI/CD, GCP, Kubernetes

*My strong technical skills and business experience give me the ability to communicate with and create alignment between developers, product owners, stakeholders, and executives.*

*Please contact me at any time when it is convenient for you to discuss further.*

## EXPERIENCE

### Whitepages

July 2019 - October 2022

#### Senior Lead FullStack Engineer - Frontend and Backend

- Worked on a development team to create new, awesome features for millions of users
- Lead the developers of development team to extend the functionality and performance of applications. Provided third level assistance and support on developed applications.
- Provided ongoing feedback to upper management on the current status of projects
- Provided architectural leadership by leading design, implementation, code reviews and drive teams to the highest standards
- Developed UI, management layer and Services, and APIs

### Contix

April 2015 - April 2018

#### Senior FullStack Engineer - React/Angular/Vue, PHP/Laravel, Python, AWS

- Build and maintain REST APIs used by our internal tools to gain access to the data
- Assist project/program/product managers, providing technical information to do project scoping and scheduling
- Work with the operations team to improve monitoring on all backend systems and APIs
- Continuously design, develop and deploy backend services with focus on high availability, low latency and scalability
- Collaborate with developers across product and services teams to integrate with backend APIs

### OpenArc

May 2011 - June 2014

#### Senior Frontend Developer

- Build applications using a variety of languages to include
- Familiarity with common patterns in building distributed systems, such as service registration and discovery, routing, load balancing and circuit breakers
- Supports Sales team with product modifications and engineering

- Think through complex problems and work with a team to implement real-world solutions
- Build web applications that work equally well on desktop and mobile devices

## EDUCATION

### University of West Florida

July 2012 - December 2016

Bachelor of Architecture (BArch), Computer science

### Florida Atlantic University

July 2006 - November 2010

Master of Computer Applications (MCA)

## SKILLS

My skill sets include:

- Frontend - React(Next.js), Angular, Vue(Nuxt.js), Typescript, Gatsby.JS, Tailwind CSS
- Backend - PHP, Laravel, Node.js (Nest, Express), Symfony, Python, Django, Golang, Rust
- CMS Frameworks - Wordpress, Webflow, Drupal, Shopify
- APIs - Restful API, Social Media API (Facebook, Google, Instagram) Twilio, SendGrid, Payment Gateway(Paypal, Stripe)
- Databases - MySQL, Redis, MongoDB, PostgreSQL, Elasticsearch
- DevOps - AWS, Azure, Gitlab, CI/CD, GCP
- Programing Language - Javascript, PHP, Ruby, Python, Golang, C/C++, C#(.NET)
